

Pedestrian and Bicycle and Safe Routes to School Programs 2024 Grant Application Plan View and Cross Section Examples and Descriptions

Both programs require that the applications include plan sheet(s) showing project design detail including plan view(s) and cross section(s). These can be hand drawn.

If there is information about new development, high equity need communities, or other context related details please make a note of that on this plan view, see text box example below.

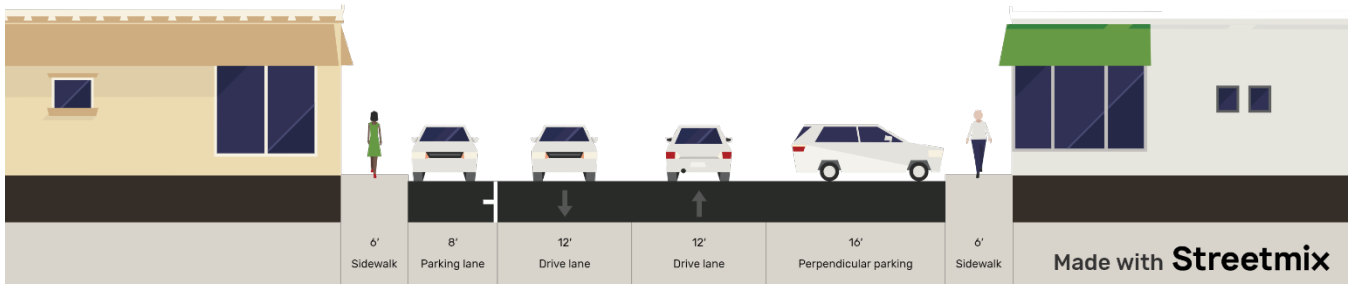

The following is an example.

Example Plan View

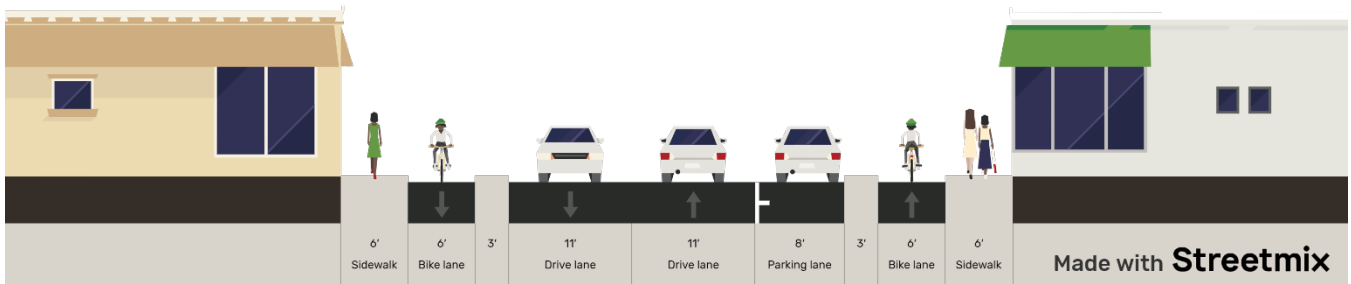

Example Cross Section

Existing 60' ROW

Proposed 60' ROW

Cross Sections shall include

- A visual image of the project location that depicts the widths and placement of **existing** right of way, pavement, travel lanes and/or other features within the proposed alignment;
- A visual image of the project location that depicts the widths and placement of **proposed** right of way, pavement, travel.

Projects with variable cross section configurations should include multiple cross sections indicating the percent of the total project that the segment represents including travel lanes and/or other features within the proposed alignment.
